

World Cup 2026 at Allegra

Corporate & Media Enclave – Private Lodging and Hospitality Near Mexico City

Location: Cuernavaca, Mexico – about 75 minutes from Mexico City and Estadio Azteca

What we offer: Villas, suites, an events venue and a private club, all connected in one private enclave that your company or media team can fully take over.

1. The Allegra Corporate Enclave in a Nutshell

One private campus for your team

Allegra Homes (weekend villas with private pools), Allegra Suites (boutique hotel-style rooms), Jardín Allegra (events venue) and PRIVE (private club & lounge), all within the same property or a short walk away.

Near Mexico City, without the city chaos

Around 75 minutes by toll highway to Mexico City and Estadio Azteca. Your team can attend matches and media activities, then retreat to warmer weather, pools, gardens and a calm, controlled environment.

Designed for groups, not just rooms

Instead of scattering people across multiple hotels, you place your entire group in one private enclave. It feels more like a corporate campus or retreat than a traditional hotel stay: you work, rest, eat, watch matches and celebrate in the same integrated space.

Ideal capacity for World Cup groups

With Allegra Suites and five private villas, the full enclave comfortably hosts **around 55–68 guests**, depending on rooming configuration.

2. Full Buyout Lodging – One Private Enclave

For corporate, media and sponsor groups, Allegra is offered as a **full buyout**:

- **Allegra Suites** – 9 hotel-style rooms inside the main garden venue
- **5 Allegra Homes** – private villas with pools, gardens and multiple bedrooms

World Cup 2026 corporate lodging rates:

- Each Allegra villa (house): **1,000 USD per night**
- Allegra Suites (all 9 rooms together): **3,000 USD per night**

Corporate full-enclave rate – Lodging Only

Instead of adding these individually ($3,000 + 5 \times 1,000 = 8,000$ USD), corporate groups receive a **preferred buyout rate**:

- **7,500 USD per night – exclusive use of the entire Allegra enclave (lodging only)**

For a typical group of **around 60 guests**, this is approximately **125 USD per guest per night** for exclusive lodging in villas and suites.

3. Corporate World Cup Packages (per night, full enclave)

All packages below assume **exclusive use of the entire Allegra enclave** (villas + suites) for corporate, media or sponsor groups of approximately **50–70 guests**.

You can choose the level of service that best fits your needs, from lodging only to fully all-inclusive.

6. Who This Is Perfect For

- TV and media crews covering the World Cup
- Brands, sponsors and agencies hosting staff, guests or clients
- Corporate groups combining a retreat, incentive trip or off-site with World Cup matches
- Production hubs needing a secure, attractive base for content creation and coordination

They all get:

- A private, controllable environment close to Mexico City
- A venue team used to running weddings and multi-day events, not just standard hotel nights
- Lodging, food, events and logistics under one roof, with a single point of contact and one integrated budget

7. Why This Corporate Pricing Makes Sense

Predictable daily cost

Instead of juggling multiple hotel bookings, restaurant events and transport providers, you work with a single daily rate for your entire basecamp, scaled to your group size.

High perceived value

Villas with pools, gardens, a wedding-quality venue and a private club feel more like a boutique resort takeover than a conventional block of hotel rooms. It photographs well, impresses guests and creates a strong brand experience.

Better team cohesion and productivity

Everyone is in the same enclave. Coordination, last-minute changes and informal meetings become much easier than when the team is scattered across the city.

Avoiding city stress

You still access Mexico City and the stadiums, but your team sleeps and works in a calmer, safer-feeling environment with less noise, less chaos and better rest.
